Exhibit 99.1

Press Release:

The Chemours Company Announces Retirement of Kristine Wellman and Appointment of Amy Rocklin as General Counsel

WILMINGTON, Del., Nov. 18, 2026—The Chemours Company ("Chemours" or "the Company") (NYSE: CC), a global chemistry company with leading market positions in Thermal & Specialized Solutions ("TSS"), Titanium Technologies ("TT"), and Advanced Performance Materials ("APM"), today announced that Kristine Wellman, Senior Vice President, General Counsel & Corporate Secretary, will retire from Chemours. Concurrent with this change, effective January 4, 2027, Amy Rocklin will join Chemours to serve as Senior Vice President, General Counsel & Corporate Secretary. As part of her transition, effective January 4, 2027, Wellman will move into the role of SVP, Senior Counsel to President and Chief Executive Officer Denise Dignam, where she will continue to provide counsel and support to the Company until May 2027.

Wellman joined Chemours in 2014 and has made significant contributions to the Company through a diverse range of leadership roles spanning legal, strategic planning, sustainability and manufacturing operations. She was part of the legal leadership team that helped stand up Chemours as an independent public company and today leads a global team of legal, corporate governance, enterprise risk, compliance, security, sustainability and government affairs professionals.

"Kristine has been an extraordinary leader, colleague and trusted advisor, and her impact on Chemours extends well beyond the legal function," said Denise Dignam, President and Chief Executive Officer of Chemours. "Her breadth of experience, sound judgment and unwavering commitment to integrity have helped shape our company from its earliest days. I am deeply grateful for Kristine's partnership and many contributions to Chemours, and I am pleased that we will continue to benefit from her experience and counsel during this transition."

Rocklin joins Chemours with more than two decades of legal, business and scientific experience in complex, technology-driven industries. Most recently, she served as Chief Legal & Administrative Officer and Corporate Secretary at Neogen Corporation, where she led global Legal and Compliance and enterprise risk, advised the Board of Directors, and held leadership responsibility for regulatory affairs, quality, government and industry affairs, and sustainability. Prior to Neogen, Rocklin spent nearly 10 years at Corning Incorporated, ultimately serving as Vice President, Corporate Law. She holds a Juris Doctor from The George Washington University Law School and a Ph.D. in Biochemistry, Molecular Biology and Biophysics from the University of Minnesota.

"Amy brings a powerful combination of legal expertise, business acumen and scientific and technical understanding to Chemours," said Dignam. "She has spent her career working at the intersection of law, science, technology and business and understands what it takes to lead in highly regulated global industries. Her experience advising boards and executive teams and navigating complex business and regulatory matters will make her a strong addition to our leadership team. We are excited to welcome Amy and look forward to her leadership and contributions as we execute our Pathway to Thrive strategy and position Chemours for long-term success."

About The Chemours Company

The Chemours Company (NYSE: CC) is a global leader in providing industrial and specialty chemicals products for markets, including coatings, plastics, refrigeration and air conditioning, transportation, semiconductor and advanced electronics, general industrial, and oil and gas. Through our three businesses – Thermal & Specialized Solutions, Titanium Technologies, and Advanced Performance Materials – we deliver application expertise and chemistry-based innovations that solve customers' biggest challenges. Our flagship products are sold under prominent brands such as Opteon™, Freon™, Ti-Pure™, Nafion™, Teflon™, Viton™, and Krytox™. Headquartered in Wilmington, Delaware and listed on the NYSE under the symbol CC, Chemours has approximately 5,700 employees and 28 manufacturing sites and serves approximately 2,400 customers in approximately 110 countries. Forward Looking Statements

This press release contains forward-looking statements, within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, which involve risks and uncertainties. Forward-looking statements provide current expectations of future events based on certain assumptions and include any statement that does not directly relate to a historical or current fact. The words "believe," "expect," "will," "anticipate," "plan," "estimate," "target," "project" and similar expressions, among others, generally identify "forward-looking statements," which speak only as of the date such statements were made. These forward-looking statements may address, among other things, the transition of the role of Senior Vice President, General Counsel & Corporate Secretary at Chemours. Forward-looking statements are based on certain assumptions and expectations of future events that may not be accurate or realized. Forward-looking statements also involve risks and uncertainties, including the ability to complete management transitions. These statements also may involve risks and uncertainties that are beyond Chemours' control. Additionally, there may be other risks and uncertainties that Chemours is unable to identify at this time or that Chemours does not currently expect to have a material impact on its business. Factors that could cause or contribute to these differences include the risks, uncertainties and other factors discussed in our filings with the U.S. Securities and Exchange Commission, including in our forthcoming Quarterly Report on Form 10-Q for the quarter ended September 30, 2026 and the Annual Report on Form 10-K for the year ended December 31, 2025. Chemours assumes no obligation to revise or update any forward-looking statement for any reason, except as required by law.
